

In 2003 I contracted JoAnn Marshall Hobbs to conduct a three month technology audit and documentation review for MicroPatent. This review was in conjunction with our parent company's Sarbanes Oxley compliance process. JoAnn conducted the project in stellar fashion. All dates were met and the documentation and her recommendations were well received.

In fact, her performance was so outstanding on the Sarbanes Oxley project that at the completion of the project I extended an additional assignment to conduct an audit of our Customer Support Unit (note, our customer support is primarily technical in nature). Again, her performance has been outstanding going far beyond the role of a consultant. In fact, midway through the project I extended the terms of the contract and placed JoAnn as our interim Vice President, Customer Support. Even though this position was based on a contract and on an interim basis, JoAnn became a member of my management team. JoAnn continues in that role today and has the full trust and respect of the MicroPatent management team.

In short, MicroPatent has enjoyed a valuable relationship with eXclusive Systems, LLC and JoAnn Marshall Hobbs. I can highly recommend eXclusive Systems.

Sincerely,

Dan Videtto
President & CEO
